

# Shamanic Mentoring Program

Welcome to shamanic mentoring that weaves together the spiritual and the physical aspects of who you are for success and wellbeing in life.

What makes Shamanic mentoring so special is that Andean Wisdom teachings are weaved in with your souls-journey and its call to share and express your unique gifts as a leader.

Guided meditations and healing ceremonies are part of this program to remove obstacles and unhealed places in the level of the energetic that holds you back from living your destiny. Meaning that you embrace and act on the passion that lives in your soul with courage to say Yes, to the positive difference you feel called to make in the world.

I have been an entrepreneur, leader, and teacher in the field of Shamanic Energy Medicine for 19 years. My mentoring programs are about awakening spiritual inner resources hand in hand with mindset and strategy to fulfill your dreams.

Those sessions are giving shamanic teachings that opens the wisdom of the heart so that you are spiritually nourished and empowered to take conscious actions towards manifestation.

To give you some examples: Shamanic mentoring works wonderfully in a project process, spiritual leadership development, or just as a boost of shamanic teachings and positive energy to bring you back on track with your mission.

We meet once a week over Zoom or in person in Stockholm for 5 mentoring sessions to create a momentum of healing change and support on your journey of discovery. In between our meetings you have actions and reflections we have agreed upon to move you closer to your outcome.

Please send an e-mail to [aiyana@amaize.se](mailto:aiyana@amaize.se) and share about who you are and what you like to bring to a mentoring program. Just share what is in your heart and we book a free call to see how Shamanic Mentoring can serve you.

*Keep growing, keep leading, keep discovering life!*

Warmly Welcome  
Aiyana
